Today's card uses the Nature's Prints bundle, the Pretty Prints designer series paper and vellum embossed with the Fern 3D Embossing Folder. This suite of products is so incredibly beautiful.

### 1. Card Cuts:

- Card Base - Cut 1 Soft Succulent cardstock to 7-1/2" x 5-1/2", score at 4-1/4"
- Center Panel - Cut 1 Soft Succulent cardstock to 4-3/4" x 3-1/2"
- DSP for Card Base - Cut 1 Pretty Print in Evening Evergreen to 5-3/8" x 3-1/8"
- DSP for Center Panel - Cut 1 Pretty Print DSP in Evening Evergreen to 4-5/8" x 3-3/8"
- DSP for Inside of Card - Cut 1 Pretty Print DSP in Evening Evergreen to 7/8" x 5-3/8"
- Vellum - after embossing with the Fern 3D embossing folder, cut down to 4-1/2" x 3-1/4"
- Scraps of Basic White cardstock for stamping and die cutting flower shapes and for sentiment label
- Scrap of Soft Succulent for sentiment label
- Inside Panel - Cut 1 Basic White cardstock to 5-3/8" x 3-1/8"
- Envelope Flap - Cut 1 Pretty Print DSP in Evening Evergreen to 6" x 2-3/4"

2. Start off by embossing the piece of vellum using the Fern 3D Embossing Folder then cut

down to size indicated above. **Tip: to keep the vellum from cracking, place a piece of copy paper on top of the embossing folder. The extra thickness of the copy paper will reduce the depth of the embossing on the vellum, helping to avoid cracking of the vellum.**

- Using the Nature's Prints stamps, stamp one Ginko and two flower sprigs in Soft Succulent ink onto Basic White cardstock. Die cut the shapes using the coordinating dies from the Natural Prints Dies.
- Adhere the DSP panels to the card base front and center panel.
- Cut a piece of white cardstock to approximately 2-3/4" x 1" to create the sentiment label. Stamp the sentiment in Soft Succulent ink onto the sentiment label. Cut a piece of Soft Succulent cardstock to the same size and adhere to the back of the white sentiment label, creating a drop shadow on the right and bottom of the label.
- Arrange die cut flower images onto the front of the embossed vellum and secure with Mini Glue Dots.
- Adhere the sentiment label on the center panel over the vellum and die cut flowers towards the bottom of the card and to the right using Stampin' Dimensionals. I placed the label approximately 3/4" from the bottom of the center panel.
- Tie a bow using Soft Succulent Open Weave Ribbon and adhere below the sentiment label using a Mini Glue Dot. I tied a bow that would stretch across the entire width of the center panel. Adhere Rustic Metallic Adhesive-Backed Dots to the vellum. Evenly place dots across the top of the vellum and down the right, then place several dots to the left of the sentiment label. The bow, flowers, sentiment label and embellishments will help determine where you can adhere the vellum to the center panel.
- Turn the vellum piece over to the wrong side and place Mini Glue Dots wherever they will be hidden by the flowers, bow and embellishments. Adhere the vellum piece to the center card panel.
- Using glue, adhere the center panel to the card base, centering the panel top to bottom and left to right.
- Using Soft Succulent ink, 2nd generation stamp the ink splatter stamp and stamp in the lower right corner of the inside card panel. Stamp the flower image from the Nature's Prints stamp set over top of this.
- Adhere the strip of DSP on the inside of the card on the right side, making sure that there is even spacing on the right, top and bottom.
- Adhere the inside white panel to the inside of the card.
- On the envelope front (bottom right), 2nd generation stamp the ink splatter image in Soft Succulent then stamp the flower image over top of the ink splatter image.
- Adhere the coordinating piece of DSP to the envelope flap and fussy cut around the flap to finish off the envelope.
